

## **11 DESCRIPTION**

ENTERAGAM is a specially formulated light-colored protein powder composed of immunoglobulin (IgG) and other serum proteins similar to those found in colostrum and milk. Other ingredients (inactive) in ENTERAGAM are dextrose and sunflower lecithin. ENTERAGAM does not contain any milk products such as lactose, casein, or whey. ENTERAGAM is gluten-free, dye-free, and soy-free. ENTERAGAM is manufactured in accordance with current Good Manufacturing Practice (cGMP) and FDA guidelines for medical food ingredients.
