

17 PATIENT COUNSELING INFORMATION

Patients should be informed of the following information before initiating therapy with ENTERAGAM and periodically during the course of ongoing therapy:

17.1 Instructions for Use

- Pour packet ingredients into cup or glass
- Add 4 oz of water (or other liquid as preferred)
- Avoid citrus juices and hot liquids
- Stir until fully mixed (do not shake)
- Drink contents
- Alternatively, product can be mixed with foods without a strong acidic content such as applesauce or yogurt
- Take one packet daily or in divided doses with or without food according to your healthcare provider's instructions
